

## SALERNO

-  Via Salvador Alende - Salerno
-  40° 30.740' N 14° 48.640' E
-  VHF Ch 74
-  [salerno@spartivento.it](mailto:salerno@spartivento.it)

Designed by Architect Santiago Calatrava, the new Marina d'Arechì represents the last frontier in harbors evolution: 1.000 anchorages for boats from 10 to 100 meters, 340.000 square meters of water surface for the biggest marina in the heart of the Mediterranean Sea. Capri, Ponza and the dreamy Amalfi and Cilento coasts are a must for sailors exploring Italy, as well as the Eolian Islands and the southern coast, making Salerno a strategic base for short and long cruises on all Mediterranean routes.

### HOW TO REACH US

-  Northbound - A1 Napoli - Salerno - after the Salerno city centre exit, take the ring road and exit at Maniconda A30 Caserta-Salerno - exit at Salerno-Fratte take the ring road southbound and exit at Maniconda
